STREETS AND LIGHTS

Occupied the Time of Council Last Night.

PAVING ALL AROUND TOWN

To Be Done Soon—Petitions in Plenty—Proposition to Buy the Morton Land, A Report and Some Miscellaneous Matters.

It was almost 8:30 last evening when council meeting was called to order by President Marshall, and for the first time in several weeks there was a fair sized crowd in the lobby. While Mr. Owen went to look for Mr. Kent everybody promised to vote for the new East End road if President Marshall would choke off the session in 15 minutes and the ball was started rolling. Roll call showed Marshall, Challis, Peake, Owen and Stewart present.

A petition from prominent St. George avenue, East End, residents asked for an electric light. On motion of Peake it was received. Four Elm street property owners asked that the grade be changed. On motion of Challis it was referred to the street committee. Engineer George requested that the committee be given power to act, as these property owners were willing to pay, and it could be done before the next meeting. Mr. Stewart moved that power be given the committee. Mr. Owen thought council could not give the committee the power unless all the property owners on the street agreed to the change, instead of the five who had signed the petition. It was decided to get the signatures of property owners first as a guarantee.

J. C. Deidrick had a kick coming about the gutter alongside his residence being insufficient to carry off the surface water during heavy rains, and also the pavement alongside the adjoining property was in bad condition. It was referred to the street committee.

The water works trustees reported balance on hand last report, \$3,211.51; receipts, \$2,132.50; expenditures, \$5,123.29; balance, \$229.72. The report was received.

Clerk Hanley reported that no claims for damages had been filed by property owners of Ridgeway avenue, Calcutta road and Peake street.

Invitations to the mayor and council to participate in the parade on Labor Day and the flag raising were received and council decided to turn out in a body.

Mrs. Catharine Myers in a communication said that a heavy rain in July had washed down the Lisbon road to Jethro and had damaged the walls of her cellar and almost washed away two lots. She thought \$30 would be sufficient municipal balm. Marshall strolled Peake about West End lots being cheap, two for \$30, and Owen moved it be referred to the city solicitor. Peake said he had suffered similar damages, and something should be done with Lisbon road. Owen's motion carried after Mr. Kent had explained that he had watched the water run down, and tin cans, sticks, rubber boots and brick bats had clogged up the sewer and caused the flood. He thought Mrs. Myers should build a wall.

Peake believed that Mr. Morton's offer was a fair one, and that Thompson should give the ground for nothing. Mr. Thompson interrupted by asking why he should give ground any more than Knowles, Taylor & Knowles should make a donation. After much discussion it was discovered that the city had the required 30 feet except at the property of Mr. Morton. Mr. Thompson gave notice that when he wanted to improve he would consider his property on the other side of the ravine. Owen moved that the matter be laid over until the next meeting, but President Marshall demurred, and said there was too much of this laying over, but when it was explained that the ground had not been looked over he consented. Peake moved that the solicitor, engineer and council examine the ground, and the motion passed. Kent at this point remembered that there was no place to store the sprinkler and street sweeper, and moved a committee be appointed to locate a suitable place, but it died for want of a second. Some one suggested that we had no business to house the sweeper until after it had been accepted, and Chief Adam kept the ball rolling by the remark that there was no room for the extra hose wagon at the fire station. At this point the motion was seconded, Kent, Stewart and Owen were made the committee, and council went home.

Market street from Grant street to Peake street was passed under suspension of rules. Likewise ordinances to improve Ridgeway avenue and Lands End street from Fenton street to Eight street; East Market street and Calcutta road from Horn switch to the north line of Wall street; Waterloo road from West Market and Peake street to north end of Waterloo road, and on motion the clerk was instructed to advertise for bids for the grading and paving.

The two property owners on Sugar alley between Cook street and High alley asked for a grade at their expense and the engineer was instructed to fix the grade. Peake complained of some steps that had slipped to the sidewalk in West End and Commissioner Welch was instructed to place them in position. Peake also wanted some holes on Lincoln avenue filled up. It was left with the street committee. Peake, Stewart and Challis were appointed to view grades established on First and Virginia avenues, East End.

Stewart then brought up the matter of wagons in alleys, and citing Harrison Rinehart's recent case, said Rinehart had no room for his wagons and could get none. The city was in almost the same boat, being compelled to leave its wagons in the alleys until it could afford to rent a building. He thought under some conditions Rinehart and other liverymen should be allowed the use of alleys. Marshall said they usually took it anyway. Owen thought the granting of such privilege would mean damage suits for the city. At least the city would throw itself liable for accidents. Consequently the question was dropped.

Owen reported that the most awkward piece of work he had seen were boulder pavements in front of the Ridgeway and Starkey properties on West Market street and moved to order them torn up and brick pavements laid. Motion carried. Marshall suggested that the Cleveland and Pittsburgh Railroad company be ordered to put an electric light at the Mulberry street crossing, East End. A motion by Peake to that effect carried.

Council went into a committee of the whole to hear W. L. Thompson and George Morton's proposition on some land the city needed and which is owned by those gentlemen. Mr. Thompson said: "The city wants 11 feet from Ravine street to a point 30 feet east of Morton's line. This would be a tract 15x18 feet and I will sell it to the city for \$1,200. I think this is a reasonable price. There might be a false impression as to the condition of the ground, it being rough in appearance. The run or ravine belongs on the other side of the street, or to the city. He remembered when it had been placed by a line on their property, but Commissioner Welch stated that the change would be temporary."

Mr. Morton said that in taking 15 feet of his property for the Huston road would make it worthless as he could erect four houses on the ground. For \$1,000, what it cost him, he would let the city have the ground and they would then have an alley they formally owned.

Peake believed that Mr. Morton's offer was a fair one, and that Thompson should give the ground for nothing. Mr. Thompson interrupted by asking why he should give ground any more than Knowles, Taylor & Knowles should make a donation.

After much discussion it was discovered that the city had the required 30 feet except at the property of Mr. Morton. Mr. Thompson gave notice that when he wanted to improve he would consider his property on the other side of the ravine. Owen moved that the matter be laid over until the next meeting, but President Marshall demurred, and said there was too much of this laying over, but when it was explained that the ground had not been looked over he consented. Peake moved that the solicitor, engineer and council examine the ground, and the motion passed. Kent at this point remembered that there was no place to store the sprinkler and street sweeper, and moved a committee be appointed to locate a suitable place, but it died for want of a second.

Some one suggested that we had no business to house the sweeper until after it had been accepted, and Chief Adam kept the ball rolling by the remark that there was no room for the extra hose wagon at the fire station. At this point the motion was seconded, Kent, Stewart and Owen were made the committee, and council went home.

BURROWS WON A BOUT

And Will Sit on the Circuit Bench.

NOMINATED ON THE FIRST

Judge Taylor of Carroll, Wm. C. Chairman and Columbian got an Assistant Secretary—We Voted for the Winner, and No Other Man.

Judge J. B. Burrows caught the plum as it fell from the hand of the judicial convention at Youngstown yesterday afternoon, and if all goes well he will continue to occupy the seat he has filled so acceptably since Judge Woodbury died.

The delegates representing the Seventh district were not slow in gathering, and soon informal conferences were being held all over the town. There were three candidates, and the position was one of such importance that each wanted it. Judge Burrows was the worker of the lot, although Judge Robinson, of Warren, was there with a force to help him along. Judge Fitch, the last candidate to ask support from his friends, was in the battle with more or less strength, but the knowing ones winked a little, and then pointed toward Burrows as the prospective winner. The convention was called in the opera house and Columbian county had a front seat with the other counties ranged according to their importance. The delegates made up a goodly number in themselves, but the populace crowded in and swelled the audience to large proportions. The judicial committee had met in the morning and selected Judge I. H. Taylor, of Carroll, for chairman and J. A. Bliss, of Belmont, as secretary.

The delegates made up a goodly number in themselves, but the populace crowded in and swelled the audience to large proportions. The judicial committee had met in the morning and selected Judge I. H. Taylor, of Carroll, for chairman and J. A. Bliss, of Belmont, as secretary. After thanking the committee for the honor, and informing the convention that "this was no place for a political speech" he started the business.

After Judge Moore of Lisbon had been made assistant secretary, and the motion to appoint committees had been duly passed those bodies were selected, Columbian faring in this way: credentialed, Judge P. C. Young; Judge J. G. Moore; permanent organization, Warren W. Hole.

Fifteen minutes were consumed in preparing the reports and then business was resumed in a hurry. Nominating speeches were cut down to 10 minutes, and nominations were to be made on the call of counties. The temporary organization was made permanent, and the committee on resolutions reported. It was nothing more than a beautiful tribute to the memory of the late Judge Woodbury, and after its adoption a copy was ordered sent to his widow.

On call of the roll of the counties Homer Harper, of Lake county, presented the name of Judge J. B. Burrows. Judge L. W. King, of Mahoning, presented the name of Judge G. F. Robinson. The call of the other counties showed no new nominations. When Trumbull county was reached John M. Stull seconded the nomination of Captain Burrows, and Judge Craig for "ten-elevenths of the delegates of Trumbull county" seconded the nomination of Judge Robinson.

The vote of the counties was then taken with the following result: Ashland, Fitch II; Belmont, Burrows 13; Carroll, Burrows 4; Columbian, Burrows 13; Geauga, Burrows 4; Guernsey, Burrows 5; Robinson 2; Harrison, Burrows 5; Jefferson, Burrows 10; Lake, Burrows 5; Mahoning, Robinson 13; Monroe, Burrows 3; Noble, Burrows 5; Portage, Robinson 6; Trumbull, Robinson & Burrows 3. Total, Burrows 70, Robinson 27, Fitch 11.

Captain J. B. Burrows, of Painesville, was declared the nominee of the convention, and Judge L. W. King and S. A. Henselman, of Ravenna, were appointed a committee to notify Captain Burrows. The nominees went to the opera house from the Tod house, and as he approached the stage he was greeted by loud cheers. He made a short speech, in which he said:

"I should be very insensible if I did not feel some gratitude to the people of this great circuit for the work of today. I have never in my life in the ambition of a boy or the mature ambition of a man hoped to secure the honor of being selected as a candidate for a seat on the circuit bench. The appointment was not solicited by me. If any mistake was made it was made by the members of the bar of Lake county."

Judge Burrows then accepted the nomination, promising if elected to fill the seat to the best of his ability.

The Liverpool delegates arrived home last night, and speak well of the treatment they received. They picked the winner by voting for Judge Burrows, and are happy. The nominee is a man well qualified to fill the position,

a gentleman and a jurist. His long experience at the bar has fitted him exceptionally well for the position, and his ability to sit with dignity and justice upon the bench has never been doubted. Captain Burrows will have a vote of which any man might well be proud.

IN DEFENSE.

A Militiaman Speaks His Mind Right Out.

The following communication was written by a citizen, who is a member of Company E, a local union and several patriotic orders:

EDITOR NEWS REVIEW—In the last issue of the supposititious labor paper, the People, it seems that the proprietor has sadly drifted from the course of unionism and fallen into ranks anarchist.

When a labor paper falls so low as to assail our militia, an institution made by the people themselves, and for the sole purpose of keeping down rebellion, and foreign encroachment, and not for the purpose of downing labor, as a few addle-pates infer, it loses the needed respect of the patriotic, law-abiding and conservative citizen, and lapses into such a state of degradation, as to make it unfit to enter an American home. Such a publication as the one issued in this city is a menace to the rising generation, and inculcates anarchy, instead of patriotism into the mind of Young America. The writer, a militiaman, was ever a friend of the People, as were all the members of E company, which is composed of patriotic union men and friends of labor; men who would aid unionism all in their power, and shoulder a musket with delight to repel riots, which are ever detrimental to the cause of labor, and are only precipitated by loud-mouthed fellows who prey on the sympathies of their listening constituents, and live in luxury, while their fellow-men and tools cry for a crust. Moral suasion is the remedy for strikes and in nine out of ten cases win the day. We are pleased to note that the patronage of the sheet in question is very slim, and steadily dropping. Editorially, the proprietor tells this to the people evenly. The publication never was even an approach on the average labor paper, but we had hoped to see it rise.

As it is at present, its death will be looked upon as a blessing, and as its vitality is fast ebbing, we hope that ere many moons, we may inscribe, "It Left the City for the City's Good." PATRIOT.

AFTER J. J. BARRETT.

The Township Trustees Have to Aid His Wife.

The trustees today sent Mrs. J. J. Barrett to Oil City, Pa., because she was in a delicate condition, and her husband will not provide for her. Barrett, not long ago, sold the furniture of their home, and instead of making an honest living by working at his trade began a round of dissipation that soon exhausted his resources. His wife, who was on a visit, heard of his actions and came home, and being in a delicate condition could not stand the trouble. She made application to the trustees, and they at once sent her to her mother. Two children of the couple are in a Catholic institution and the mother took two with her leaving one here to make her own way. Meantime there should be some means of punishing the man Barrett.

THE LISBON RACES.

Liverpool Will Be There In Force Tomorrow.

Jack Harris rode to Lisbon this afternoon, and during the day went over the route mapped out for the road race tomorrow. He has been ill too long to take any part in the race, but he will accumulate pointers for other Liverpool boys who have entered. York will be the scratch man, and in the five-mile handicap he will have the limit. Hale, Trappe and Irons are in the races, and will undoubtedly bring away their share of the trophies. Bott is entered in the road race, having only 30 seconds the advantage of York. A great crowd will attend from this city and the Liverpool boys will have plenty of rooters to cheer them on.

STILL IN JAIL.

There Is No Charge Against Hackathorn.

George Hackathorn, the youth who made the air on Fifth street ring with pistol shots yesterday afternoon, is still in jail, and more comfortable than he was last night, because his clothes have dried. As yet there is no charge against him, and he has not been arraigned. The police did not see him shoot, but it seems certain that he will not be allowed his freedom without some punishment.

KILMEN CAN WORK.

There Will Be No Attempt To Stop Necessary Toll.

The Sunday closing movement was generally discussed about the streets last evening, and satisfaction was expressed because there would be no effort to suppress Sunday work, or such of it as be necessary, about the potteries. No move will be made to interfere with kilmen, watchmen and other workmen that can not be avoided but other departments will be closely watched, and the men who work because they have nothing else to do will come under the law.

A BEAVER EXPERIENCE.

Liverpool Boys Were Too Noisy for the Town.

A luckless pair of Liverpool boys, who rode on a freight train to Rochester, and from there succeeded in getting to Beaver, were arrested in the latter place last night, and fined what money they had about them. They returned this morning in the same manner as they left town, only worlds richer in experience.

WHIPPED THE OFFICER

Two Liverpool Boys in Jail at Elwood.

GAVE HIM A GOOD THRASHING

They Did Not Agree With the Policeman And He Got the Worst of It—The Burgess Would Accept No Forfeit—Will Be Heard Today.

Two young men of the East End who went to Rock Point yesterday are now wishing they had remained at home for in the afternoon they were locked in a dungeon cell awaiting the pleasure of his royal highness, the mayor of Elwood.

When the train came in last night these young men were missing, and some of their friends related that they had become involved in a row with a policeman at Elwood, and had given him a sound thrashing when he attempted to arrest them for doing next to nothing. They were not drunk, nor had they been drinking, so they gave the officer a thrashing he will not forget for many days. The fight might have resulted seriously, but two other policemen came to his aid and they were taken to jail. Some of their friends questioned the burgess about the price of their liberty offering him \$13 and a gold watch as security, but he would have none of it. He had the prisoners, he said, and he was going to keep them until they were tried. The anxious ones were compelled to return empty handed, and wait patiently until they could hear something today.

A ROUGH RUN.

The Patrol Had a Hard Drive Through the Mud.

An alarm called the patrol last night about 9 o'clock and Patrolman McMillan had the hardest run of his experience

THE Cleveland Leader evidently understands the situation when it refers to Mr. Campbell as "Brice's hired man."

BUSINESS grows better because the public knows there is no danger of Mr. Wilson and his wild ideas having any effect upon the tariff.

SENATOR BRICE, of New York, contemplates a month's visit in this state before election day. He wants to gain a residence probably.

MR. BRICE pays the bill, and Mr. Campbell does the running, a nice arrangement on paper, but destined to be costly to both aspiring statesmen.

THE Republican editors of Ohio did well when they called on General Bushnell yesterday. They were received by gentleman as gentlemen, and will not soon forget the hospitalities of that pleasant home.

CIVIL service is only valuable to Cleveland's administration as an anchor. When clerks and other officials are needed for political work Cleveland is not the man to enforce that famous uskase of a few years ago. He forgets all about "pernicious activity," or if he remembers it, only thinks of it in connection with the good it will do him.

CRUSH IT OUT.

It is the duty of every good citizen to obey the law, and equally as much the duty of the authorities to suppress him when he ceases to understand what the letter of the law means. The last week has been filled with incidents where men have died because they broke the statutes, yet their death was a crime as sure as any they ever committed. Even this state with all its boasted civilization, was the scene of a lynching, and the south witnessed a half a dozen lives nipped out in this way. It is high time the government should interfere if the individual states can not cope with the growing evil, and it is evident they can not. Several hundred people have been lynched in the country these past few years, and few if any have been punished for the crimes.

As a rule the populace were maddened by some unusually heinous offense, and the local authorities could not resist them. Until the great American public learn that it is murder to lynch men and women there is little hope of any improvement being noted, and the best way to teach them law is to punish those who break it. Public sentiment may object, but public sentiment must be crushed down or lynching will become more firmly established year by year until there will be no need for judges and juries.

THREE STRIKERS SHOT

They Beat a Man Who Worked Where They Quit.

FIRE AMONG HIS ASSAILANTS.

The Strike Leader Will Die of His Wounds Was a Coxeyite and Participated in the Chicago Riots—Lively Time Occurs at Wakoneta, O.

WAKONETA, O., Aug. 28.—The strike here on the waterworks trenches has developed into a tragedy, and three men, Joshua Tiller of Pittsburgh, Albert Seifert and Oscar Voorhees of this place, have been shot. Tiller through the bowels, Seifert through the arm and the latter through the hand. Tiller will die. The men went on a strike and declared no one should go to work until their demands were satisfied. Some of them went to work anyway, but were driven out.

The trustees and the contractor ordered Lewis Vanskiwer and another party to fill some trenches and cover some pipe in the Second ward. They began work and a crowd of strikers congregated and commenced beating Vanskiwer over the head with clubs and shovel handles, breaking the largest ones by force of the blows. After he had been struck several times he drew a revolver from his pocket and fired into his assailants three times with the above results. Several of the participants have been arrested and the officials are after others.

Vanskiwer is a resident of this place and is considered a good, straight fellow, and public sentiment is apparently with him. Other men will be brought in and put to work immediately, and every man connected with the assault is being arrested.

Dr. John Nichols has just announced that the ball passed entirely through Tiller's intestines and says he only has a few hours to live. Tiller was apparently the leader of the strike and was with Coxey on his march and in the Chicago riots.

Paris Green in the Mouthpiece.

COLUMBUS, Aug. 28.—Lawrence Bass, a United States deputy marshal, went to the Springfield state convention as a volunteer member of the St. George band. He borrowed an instrument at the accoutrements for the occasion. While there he had his mouth badly poisoned. He claims that members of the band put paris green in the mouthpiece of his horn, and he refused to give up the band property until his claim for damages and medical attention was settled.

The Missing School Teacher Found.

PLAINFIELD, N. J., Aug. 28.—Miss Loretta Clark, who so mysteriously disappeared from this city on Aug. 9, of whom no further trace could be found, has at last been discovered at Fitchburg, Mass., where she was employed as a servant in the family of Charles S. Hayden. She seems dazed and suffering from an abberation of mind.

Olo Colored Knights Templar.

CLEVELAND, Aug. 28.—The twenty-fourth annual conclave of the grand commandery of Colored Knights Templar of Ohio is in session here. The delegates, who number about 150, attended divine service at St. John's A. M. E. church, where Rev. R. E. Ramse delivered a sermon.

Date of Meeting Changed.

CINCINNATI, Aug. 28.—The date for the annual meeting of the National Association of Manufacturers at Chicago has been, by order of the executive committee, fixed for Nov. 19, 1895, instead of Oct. 15, as heretofore ordered.

Saw Her Babe Killed.

LIMA, O., Aug. 28.—The 15-months old child of William McKinley ran under the heels of a horse and was kicked to death. The mother was close to the little one at the time. She fainted and may lose her mind.

Editors Call on Bushnell.

SPRINGFIELD, O., Aug. 28.—Nearly 100 Republican editors of Ohio called on General Bushnell yesterday. General Jones, candidate for lieutenant governor, was here also.

SMALL OHIO HAPPENINGS.

Nathan Overpeck, the marshal of New Paris, was bound over in the sum of \$1,500 for killing Peter Hughes.

Captain Isaac Collins of the Kenton fire department died from injuries received by falling from a tree onto an iron gate picket.

Rev. J. D. McCalif of Beaver, Pa., has been elected pastor of the Bridgeport Presbyterian church. Several candidates were voted for.

The second special election to decide whether or not New Carlisle should issue bonds for a new city building resulted by a large majority in the affirmative.

Lena Mallone of Columbus has begun suit for divorce from her husband, Charles Mallone, a railroad man living in Cincinnati. Habitual drunkenness is charged.

Robert Gibbs, a carpenter, was struck on the head by a falling piece of timber at the new Indian Run churches, Portsmouth, receiving injuries that are expected to prove fatal.

James Peasley, a farmer of Holmes township, Crawford county, is missing. He came to Bucyrus and took the excursion train to Toledo and Put-in-Bay, and was on the steamer City of Toledo when she collided with a schooner.

Near Washington C. H., Claude Andrew and Miss Cora Casey were enjoying a buggy ride when their horse bolted. Andrew was badly kicked on the neck, and Miss Casey was kicked on the forehead just above the eye. It is also feared that the young lady was injured internally.

Frank Holycross of Marysville was arrested and brought before Squire Williams on a paternity charge preferred by Mrs. Pickett Lansdown, mother of Lillie Lansdown, the girl in the case. He was arrested some time ago on the same charge, but was released on the promise of paying a certain amount, which he has failed to do. Hence the arrest.

Under instructions from the county coroner, Dr. O. C. Stutz, assisted by Dr. McConnell and Walton, performed a post mortem examination upon Policeman Simonis, who was found in a dying condition in the rear of the Comus works, at Upper Sandusky. Their official report mentions no marks of violence, and in their opinion he died from congestion of the brain.

RANSOM AGAIN MINISTER.

The President Sends the Mexican Representative a New Commission.

WASHINGTON, Aug. 28.—The president has granted a new commission to Matt W. Ransom, United States minister to Mexico. This ends a legal complication, by which Minister Ransom, after several months' service at his post at the City of Mexico, was declared ineligible to fill the office to which he had been appointed prior to the expiration of his term as United States senator. It was held by the treasury accounting officers that he fell within a constitutional inhibition against the appointment of congressmen to offices created, or whose emoluments had been increased, during their services in congress.

It had been generally understood that Mr. Ransom would be promptly re-appointed, and the slight delay which has occurred presumably has been for the purpose of definitely ascertaining that there was no more legal or other obstacles in the way of renaming Mr. Ransom to the Mexican mission. The minister was in Washington a few days ago, but is now in North Carolina recuperating from an attack of illness, due in part to the climate of the City of Mexico.

TERROR AMONG ARMENIANS.

They Fear Turks Will Punish Them For Brigands' Crime.

CONSTANTINOPLE, Aug. 23.—Advices received here from Erzincan say that great terror prevails among the Armenians there owing to the attitude of the Turkish authorities. The latter, in consequence of an attack which was recently made by brigands upon a Turkish colonel, during which a member of the escort was killed, are believed to be taking steps which will have most serious consequences.

The Armenians are accused of being the authors of the attack on the colonel, and it is alleged that a large force of Turkish troops has been retaliating by attacking the villages and monasteries of the vicinity and engaging in other acts of violence. The Armenians, fearing a recurrence of the Soudan outrages, have appealed to the ambassadors of the powers at Constantinople for protection.

Send the Millionaire Spendthrift Home.

COUNCIL BLUFFS, Ia., Aug. 28.—Leslie D. St. Clair, the millionaire of Vincennes, Ind., who has been literally burning money here for a week, has left for home, being assisted by the police. The chief of police arrested him on suspicion of being a bank robber and made him gather up all his money and took him to a bank, where it was counted over and \$2,150 put in the form of a draft and sent to his address in Vincennes by mail. He was then sent along after it in custody of the police.

A New Star for the Flag.

WASHINGTON, Aug. 28.—Preparations are in progress at the war department to secure the incorporation of another star on the United States flags to represent Utah. The flags having the additional star are not authorized to be used until July 4, 1896, the date of the admission of Utah as a state, and an official order will be issued requiring the change, to take effect on that date.

Monument to Revolutionary Soldiers.

BROOKLYN, Aug. 28.—The monument in commemoration of the bravery of the famous "Maryland 400," in the battle of Long Island, has been dedicated with imposing ceremonies. The monument was erected by the Maryland society. The principal addresses were delivered by Colonel George D. Pearre of Baltimore and General Horace Porter of New York.

A Woman Mysteriously Missing.

HOUGHTON, Mich., Aug. 28.—Mrs. Phillip Schuermann, wife of the manager of the C. Schuermann Brewing company, left the residence of John Nelson, in West Houghton, to walk home, a distance of less than two miles. THE SIOUX CITY TRAGEDY.

Arrests Made as Double Murder and Robbery Is Suspected.

SIOUX CITY, Ia., Aug. 28.—Startling developments have come to light in connection with the double tragedy in which Max Noack and Ira Minter, alias Hazel Hammond, lost their lives. The most important find is the discovery of the imprint of a strange man's hand on the dust in the room in which the bodies were found and an exit to the alley below, which had not been noticed before. A hammer with what appears to be human blood on it has also been found. It is now thought that this hammer figured in the killing. The theory of double murder with robbery as the motive is regarded as fully confirmed.

Warrants have been sworn out charging Maud Hoyle, proprietress of the house where the murder occurred, and Dan Berry, a pugilist who formerly lived in Omaha, with murder in the first degree, and they were both placed under arrest.

A telegram from Shelton, Neb., says Noack was the son of a wealthy farmer living near that city. The dead girl was a prominent member of the Methodist church at Central City, Neb., where her father lives, and moved in the best society there before coming here three months ago.

JURISTS AT DETROIT.

A Distinguished Gathering at the American Bar Association Convention.

DETROIT, Aug. 28.—An intellectual looking assembly of 300 leading jurists and members of the bar were present in Y. M. C. A. hall when President James C. Carter of New York called to order the eighteenth annual convention of the American Bar association. After thanking the Detroit representatives of the profession for the cordial receptions tendered the visitors the president read a short list of the most noted jurists present, who were invited to seats upon the platform. President Carter then proceeded with the reading of his address.

The prospect of an exciting battle has attracted to Harrisburg many of the roughest element from the larger cities, and trouble is looked for, although there has been nothing more serious than an occasional fist fight. Aside from the announcement that Quay has a majority of the delegates, and that there will probably be two conventions, the news feature has been the capture of the opera house, where the convention was to be held by the anti-Quay people.

A dramatic company was holding forth at the opera house. Chairman Gilkeson is said to have received information that the Quay people had planned to fill the house with "heeler," who would refuse to leave at the end of the performance, and remain all night, thus gaining possession of the house. To circumvent this move, Chairman Gilkeson bought off the theatrical company, and securing the keys from the leasees, placed in the house about 100 policemen, firemen, special officers and other determined men, who arrived from Pittsburgh under charge of Superintendent of Police Roger O'Mara of that city. Their meals were sent in to them, and they remained in the house all night.

Today's convention is to select candidates for state treasurer and superior judges. B. J. Haywood of Mercer county will probably be chosen for state treasurer, but it is possible that the six judges who were appointed by Governor Hastings, and who it was thought would be unopposed for the nomination, will find themselves cast aside by the Quay people and new men named for their places. Among the dark horses named are Judges Wilhelm of Schuykill, Davenport of Erie, Stewart of Franklin, Crumrine of Washington and Schaefer of Delaware.

The state committee when it met received from the Quay caucus the request for a separate convention. The request was referred to a sub-committee, who it is understood, will endeavor to arrive at an amicable agreement with the anti-Quay leaders, whereby only one convention may be held.

It is also understood that the Quay people have engaged the hall over the Chestnut Street markethouse, which seats 500 persons, and will hold their convention there if the effort to arrive at an amicable agreement with the anti-Quay people fails.

The anti-Quay leaders are claiming that there were 153 delegates at their caucus, although there was no rollcall, and that the Quay people worked the old trick of answering to the names of delegates who were not present. The anti-Quayites say their forces remain unbroken, and that they had 152 uncontested delegates at their caucus, a majority of seven.

AFTER MEN AND WOMEN

Cherry Valley Iron Company Gets an Injunction.

THE WASHINGTONVILLE MATTER

In the Petition the Mine Owners Claim Their Employees Will Not Allow Others to Work—Lives Threatened and Declarations to Blow Up the Mine.

Special to NEWS REVIEW.

LISBON, Aug. 28.—The trouble between the Cherry Valley Iron company and the miners who have been in its employ at Washingtonville culminated in a suit in court today, and a temporary injunction to prevent further demonstration on the part of the men.

The petition recites that the men struck on May 1 and have since refused to return except on such conditions as make it impossible for the company to pay the wages they demand. The mine was idle until August 5 when other men were employed, but on account of threats the miners have alarmed and intimidated the new comers so that they have succeeded in forcing them to abandon work, and prevent others from making the attempt. The petition further claims that in several instances men have been assaulted and threatened with death, and the strikers have repeatedly threatened to blow up the mine. The defendants are named to the number of 30, several being women. This is the sequel to the call for aid upon Sheriff Lodge a few weeks ago, and will in all probability end the strike.

AT HOLLOW ROCK.

Holliness Taylor is Making Some Ad-dresses.

The attendance at Hollow Rock has grown largely since the meetings began, and in spite of rain and holes in the cottage and tent roofs the cottagers are having a pleasant time. Holliness Taylor is there in force, and has adopted his usual method of campaigning. He said in one of his sermons that there were three kinds of poor, the Lord's poor, the devil's poor, and the poor devils. He also said that morality would keep the sinner out of jail, but it required holiness to keep him out of hell.

A Toronto special says: There was great excitement at the Hollow Rock camp grounds yesterday over a sermon by the leader, Rev. B. S. Taylor, of Des Moines, Ia., who stated that preachers nowadays are preaching smooth doctrines to get the people's money. He also stated that secret societies are a curse to religion, that when one of their members commits a sin the others help him out.

A PAIR OF JACKS

Get Into Trouble in East End—In Squire's Court.

John Bloss was bothered by a cow belonging to John J. Schneider in East End the other night so he cast the bovine from his flower beds into outer darkness. That made Schneider warm in the region of the necktie and he spoke his feelings in piratical language. Then Bloss smote him and the cruel war was over. Schneider caused Bloss' arrest for assault and battery, and he will have a hearing before Squire Rose at 7 o'clock this evening.

The Canton Buggy and Gear company sues Joseph Walter in Squire Rose's court for \$75 on a promissory note. Hearing at 8 o'clock Saturday morning.

John A. Page sues McGhile & Moore for \$41.80, balance on account. Hearing before Squire Rose at 1 o'clock on September 5.

A COWARDLY DEED.

A Young Lady Struck in the Back by a Stone.

When a party of ladies were driving on Fourth street last evening they encountered a crowd of children playing in the street, and one insisted on dragging her little sister in front of the horse. The driver pulled hard to avoid an accident and as she was going at a low rate of speed succeeded.

Later in the evening the carriage passed that way again, and a stone was thrown from the shrubbery near by striking the young lady in the back and almost knocking her senseless. The stone was large and evidently thrown by some one with a strong arm and a sure aim. The occupants of the carriage looked for the miscreant, but he could not be found. A workhouse term would be the right thing for that man whoever he may be.

RAN ON THE TRACK.

A Wild Horse Paced a Train in the West End.

A horse owned by Robert Walters ran away this morning, and dashing out of the road which leads from Jethro street to a point near the Specialty glass works started up the track toward the flint mill. A freight train was advancing from the opposite direction, but the engineer reduced the speed so there was no danger of the horse being run down.

and followed at a safe distance. With every tie the wheels of the buggy went bouncing in the air, but the maddened animal kept the track until after he had crossed the culvert when he settled down to an easier gait, and was eventually captured.

SANCTIONED THE RACES.

All Wheelmen Can Ride in Safety on Labor Day.

The Labor Day committee met last evening, and learned that the racing board of the L. A. W. had sanctioned the contests on Labor Day, and any wheelmen can ride without danger of being suspended. The position of starter was tendered W. V. Blake, and Doctor Marshall was made official handicapper. Entries have already started to appear, and a good list is expected. The committee also appointed 20 men to act as special policemen on the grounds, and they will be sworn in by Squire Manley on Saturday night.

BUFFALO BILL OWNS IT.

The Great Scout Has the City in His Grasp.

Buffalo Bill owns the city, and will attract the greater part of its population to his show on Friday of this week. The kilnmen have decided to postpone the meeting they had arranged for that evening, and the small boy is in his glory. Clothes lines are confiscated for lariats, and horses of every description are made to do duty as fiery untamed steeds of the plains. If Buffalo Bill does not have a great crowd at the performances of Friday it will not be because all of Liverpool expects to meet her.

NO DELAY.

It is Thought the Seats For the New Building Will Be Here.

There is some misgiving about the breast of the school authorities now that the new building is almost ready for occupancy, and some seats have not yet arrived. All the other buildings are of course provided with seats, and the central school is all right with the exception of three rooms down stairs and an equal number on the second floor. It is believed that the seats will be here in time, but if they fail to come the hitch will only last over a few days and will only effect a few hundred scholars.

WHO WAS DROWNED?

The Query They Ask About the Pumping Station.

The report is current on the streets today that a man driving a horse attached to a buggy was drowned with the animal near the pumping station last night. They know nothing about the story at the station except that it was heard there this morning, but it is well spread over the city, although no particulars could be learned. There is probably nothing in the tale as the water near the point mentioned is low.

WITH THE HEAT.

W. E. Cooper Prostrated But is Improving Today.

W. E. Cooper, of Sixth street, was a victim of the terrific heat of today, being stricken at his place of business. He was taken home and medical aid summoned. He is improving this afternoon.

Mr. Grover, at one time one of the principal stockholders of the street railway company, was in the city yesterday afternoon and last evening accompanied by Mr. Russell, the attorney who has charge of Hon. Tom Johnson's business. They had a good look at the line with Superintendent Andrews and it was suggested that Grover was again a stockholder.

Foster's Predictions.

Foster's next predicted storm wave is scheduled to arrive about the 31st. Cool wave will cross west of the Rockies country about the 29th, great central valleys on the 31st and eastern states Sept. 2. Very considerable rainfall will occur during the first week in September and severe storms. The storm wave of that period will reach the Pacific coast about Sept. 1; cross the west of Rockies country by close of 2d; great central valleys, 3d to 5th, and eastern states, 6th. Warm wave will cross west of the Rockies country about Sept. 1; great central valley, 3d; eastern states, 5th.

HYPNOTIZED THE GIRLS.

A party of young ladies who attended the picnic at Rock Point yesterday became infatuated with a young man and amused a number of

their friends by their actions. He was bowing and scraping to them all the time, and they were greatly elated at the mash they had made. Some were scandalized when they heard of the matter, but toned down their feelings when they learned the little fellow was made of iron and attached to the piston rod of an engine operating a merry-go-round.

RECOVERED THE HORSE.

James Welsh, the farmer residing near Hall Deadening who had a horse and saddle stolen last week, recovered his property at Columbiana this morning. It had been sold to Chris Zeiger, a dealer of that place, and he was about to ship it east when someone recognized the animal and sent word to Welsh. There is no clue to the thief, as he departed from Columbiana as soon as the horse was sold.

OUNDING THE ALARM.

The bell at city hall sounded several times this afternoon, and each alarm brought people into the streets, but there was no fire. A chance connection while the wires are being repaired caused the noise.

ON THE ROAD.

Mr. Stubbs left for the west this morning where he will look after the business of the Dresden.

David Bryan, with the samples of the Sebring company near him, left for a trip today.

STREETS AND LIGHTS

Occupied the Time of Council Last Night.

PAVING ALL AROUND TOWN

To Be Done Soon—Petitions in Plenty—Proposition to Buy the Morton Land, A Report and Some Miscellaneous Matters.

It was almost 8:30 last evening when council meeting was called to order by President Marshall, and for the first time in several weeks there was a fair sized crowd in the lobby. While Mr. Owen went to look for Mr. Kent everybody promised to vote for the new East End road if President Marshall would choke off the session in 15 minutes and the ball was started rolling. Roll call showed Marshall, Challis, Peake, Owen and Stewart were appointed to view grades established on First and Virginia avenues, East End.

A petition from prominent St. George avenue, East End, residents asked for an electric light. On motion of Peake it was received. Four Elm street property owners asked that the grade be changed. On motion of Challis it was referred to the street committee. Engineer George requested that the committee be given power to act, as these property owners were willing to pay, and it could be done before the next meeting. Mr. Stewart moved that power be given the committee. Mr. Owen thought council could not give the committee the power unless all the property owners on the street agreed to the change, instead of the five who had signed the petition. It was decided to get the signatures of property owners first as a guarantee.

J. C. Deidrick had a kick coming about the gutter alongside his residence being insufficient to carry off the surface water during heavy rains, and also the pavement alongside the adjoining property was in bad condition. It was referred to the street committee.

The water works trustees reported balance on hand last report, \$3,211.51; receipts, \$2,132.50; expenditures, \$5,123.29; balance, \$220.72. The report was received.

Clerk Hanley reported that no claims for damages had been filed by property owners of Ridgeway avenue, Calcutta road and Peake street.

Invitations to the mayor and council to participate in the parade on Labor Day and the flag raising were received and council decided to turn out in a body.

Mrs. Catharine Myers in a communication said that a heavy rain in July had washed down the Lisbon road to Jethro and had damaged the walls of her cellar and almost washed away two lots. She thought \$30 would be sufficient municipal balm. Marshall twitted Peake about West End lots being cheap, two for \$30, and Owen moved it be referred to the city solicitor. Peake said he had suffered similar damages, and something should be done with Lisbon road. Owen's motion carried after Mr. Kent had explained that he had watched the water run down, and tin cans, sticks, rubber boots and brick bats had clogged up the sewer and caused the flood. He thought Mrs. Myers should build a wall.

A petition for an electric light at Woodlawn and Basil avenues caused some discussion. A motion to refer it to the light committee with power to act was met by Stewart who stated that there was hardly enough money in the light fund to pay for what the city now has without thinking of new ones. Kent said they would get a lamplight if the city would give no other. Owen pointed out that Norton street was very dangerous there being places where people were liable to go over the hill and get killed. Peake said the people in Jethro, East End, Avondale street, Simms' hill and Peake's point were just as good as those on Norton and they had no lights—that is electric lights, of course. President Marshall thought the only way out of the matter was for the finance committee to meet and provide ways and means for all the lights petitioned for. Peake made a motion to that effect, and it carried unanimously.

John Wucherer was on hand and presented a plat of Sophia street and Rock alley, and on motion of Owen it was received by council. Peake alone voting nay. Peake said his reason for opposing it was that two or three of the Wucherer heirs were objecting to the city taking the land. Mr. Wucherer said a brother-in-law had been causing trouble but the property owners on Sophia street would look after him and the city would be safe. After some talk about referring it to the solicitor it was decided to let the matter drop.

An ordinance to improve West

Market street from Grant street to Peake street was passed under suspension of rules. Likewise ordinances to improve Ridgeway avenue and Lands End street from Fenton street to Eight street; East Market street and Calcutta road from Horn switch to the north line of Wall street; Waterloo road from West Market and Peake street to north end of Waterloo road, and on motion the clerk was instructed to advertise for bids for the grading and paving.

The two property owners on Sugar alley between Cook street and High alley asked for a grade at their expense and the engineer was instructed to fix the grade. Peake complained of some steps that had slipped to the sidewalk in West End and Commissioner Welch was instructed to place them in position. Peake also wanted some holes on Lincoln avenue filled up. It was left with the street committee. Peake, Stewart and Challis were appointed to view grades established on First and Virginia avenues, East End.

Stewart then brought up the matter of wagons in alleys, and citing Harrison Rinehart's recent case, said Rinehart had no room for his wagons and could get none. The city was in almost the same boat, being compelled to leave its wagons in the alleys until it could afford to rent a building. He thought under some conditions Rinehart and other livermen should be allowed the use of alleys. Marshall said they usually took it anyway. Owen thought the granting of such privilege would mean damage suits for the city. At least the city would throw itself liable for accidents. Consequently the question was dropped.

Owen reported that the most awkward piece of work he had seen were boulder pavements in front of the Ridgeway and Starkey properties on West Market street and moved to order them torn up and brick pavements laid. Motion carried. Marshall suggested that the Cleveland and Pittsburgh Railroad company be ordered to put an electric light at the Mulberry street crossing, East End. A motion by Peake to that effect carried.

Council went into a committee of the whole to hear W. L. Thompson and George Morton's proposition on some land the city needed and which is owned by those gentlemen. Mr. Thompson said: "The city wants 11 feet from Ravine street to a point 30 feet east of Morton's line. This would be a tract 15x188 feet and I will sell it to the city for \$1,200. I think this is a reasonable price. There might be a false impression as to the condition of the ground, it being rough in appearance. The run or ravine belongs on the other side of the street, or to the city. He remembered when it had been placed by a line on their property, but Commissioner Welch stated that the change would be temporary."

Mr. Morton said that in taking 15 feet of his property for the Huston road would make it worthless as he could erect four houses on the ground. For \$1,000, what it cost him, he would let the city have the ground and they would then have an alley they formerly owned.

Peake believed that Mr. Morton's offer was a fair one, and that Thompson should give the ground for nothing.

Mr. Thompson interrupted by asking why he should give ground any more than Knowles, Taylor & Knowles should make a donation. After much discussion it was discovered that the city had the required 30 feet except at the property of Mr. Morton. Mr. Thompson gave notice that when he wanted to improve he would consider his property on the other side of the ravine. Owen moved that the matter be laid over until the next meeting, but President Marshall demurred, and said there was too much of this laying over, but when it was explained that the ground had not been looked over he consented. Peake moved that the solicitor, engineer and council examine the ground, and the motion passed. Kent at this point remembered that there was no place to store the sprinkler and street sweeper, and moved a committee be appointed to locate a suitable place, but it died for want of a second. Some one suggested that we had no business to house the sweeper until after it had been accepted, and Chief Adam kept the ball rolling by the remark that there was no room for the extra horse wagon at the fire station. At this point the motion was seconded, Kent, Stewart and Owen were made the committee, and council went home.

An Evening Picnic.

The Flabbergasters and the musical club will picnic tomorrow. The afternoon and evening will be spent in dancing.

BURROWS WON A BOUT

And Will Sit on the Circuit Bench.

NOMINATED ON THE FIRST

Judge Taylor, of Carroll, Was the Chairman and Columbian Got an Assistant Secretary—We Voted for the Winner, and No Other Man.

Judge J. B. Burrows caught the plum as it fell from the hand of the judicial convention at Youngstown yesterday afternoon, and if all goes well he will continue to occupy the seat he has filled so acceptably since Judge Woodbury died.

The delegates representing the Seventh district were not slow in gathering, and soon informal conferences were being held all over the town. There were three candidates, and the position was one of such importance that each wanted it. Judge Burrows was the worker of the lot, although Judge Robinson, of Warren, was there with a force to help him along. Judge Fitch, the last candidate to ask support from his friends, was in the battle with more or less strength, but the knowing ones winked a little, and then pointed toward Burrows as the prospective winner. The convention was called in the opera house and Columbian county had a front seat with the other counties ranged according to their importance. The delegates made up a goodly number in themselves, but the populace crowded in and swelled the audience to large proportions. The judicial committee had met in the morning and selected Judge I. H. Taylor, of Carroll, for chairman and J. A. Bliss of Belmont, as secretary. After thanking the committee for the honor, and informing the convention that "this was no place for a political speech" he started the business.

After Judge Moore of Lisbon had been made assistant secretary, and the motion to appoint committees had been duly passed those bodies were selected, Columbian faring in this way: credentials, Judge P. C. Young; rules, Judge J. G. Moore; permanent organization, Warren W. Hole.

Fifteen minutes were consumed in preparing the reports and then business was resumed in a hurry. Nominating speeches were cut down to 10 minutes, and nominations were to be made on the call of counties. The temporary organization was made permanent, and the committee on resolutions reported. It was nothing more than a beautiful tribute to the memory of the late Judge Woodbury, and after its adoption a copy was ordered sent to his widow.

On call of the roll of the counties Homer Harper, of Lake county, presented the name of Judge J. B. Burrows. Judge L. W. King, of Mahoning, presented the name of Judge F. E. Robinson. The call of the other counties showed no new nominations. When Trumbull county was reached John M. Still seconded the nomination of Captain Burrows, and Judge Craig for "ten-elevenths of the delegates of Trumbull county" seconded the nomination of Judge Robinson.

The vote of the counties was then taken with the following result: Ashland, Fitch 11; Belmont, Burrows 13; Carroll, Burrows 4; Columbian, Burrows 13; Geauga, Burrows 4; Guernsey, Burrows 5; Robinson 2; Harrison, Burrows 5; Jefferson, Burrows 10; Lake, Burrows 5; Mahoning, Robinson 13; Monroe, Burrows 3; Noble, Burrows 5; Portage, Robinson 6; Trumbull, Robinson 8; Burrows 3. Total, Burrows 70; Robinson 27; Fitch 11.

Captain J. B. Burrows, of Painesville, was declared the nominee of the convention, and Judge L. W. King and S. A. Henselman, of Ravenna, were appointed a committee to notify Captain Burrows. The nominee went to the opera house from the Tod house, and as he approached the stage he was greeted by loud cheers. He made a short speech, in which he said:

"I should be very insensible if I did not feel some gratitude to the people of this great circuit for the work of today. I have never in my life in the ambition of a boy or the mature ambition of a man hoped to secure the honor of being selected as a candidate for a seat on the circuit bench. The appointment was not solicited by me. If any mistake was made it was made by the members of the bar of Lake county."

Judge Burrows then accepted the nomination, promising if elected to fill the seat to the best of his ability.

The Liverpool delegates arrived home last night, and speak well of the treatment they received. They picked the winner by voting for Judge Burrows, and are happy. The nominee is a man well qualified to fill the position,

a gentleman and a jurist. His long experience at the bar has fitted him exceptionally well for the position, and his ability to sit with dignity and justice upon the bench has never been doubted. Captain Burrows will have a vote of which any man might well be proud.

IN DEFENSE.

A Militiaman Speaks His Mind Right Out.

The following communication was written by a citizen, who is a member of Company E, a local union and several patriotic orders:

EDITOR NEWS REVIEW—In the last issue of the supposititious labor paper, the People, it seems that the proprietor has sadly drifted from the course of unionism and fallen into ranks anarchistic. When a labor paper fails so low as to assail our militia, an institution made by the people themselves, and for the sole purpose of keeping down rebellion, and foreign encroachment, and not for the purpose of downing labor, as a few addle-pates infer, it loses the needed respect of the patriotic, law-abiding and conservative citizen, and lapses into such a state of degradation, as to make it unfit to enter an American home. Such a publication as the one issued in this city is a menace to the rising generation, and inculcates anarchy, instead of patriotism into the mind of Young America. The writer, a militiaman, was ever a friend of the People, as were all the members of E company, which is composed of patriotic union men and friends of labor; men who would aid unionism all in their power, and shoulder a musket with delight to repel riots, which are ever detrimental to the cause of labor, and are only precipitated by loud-mouthed fellows who prey on the sympathies of their listening constituents, and live in luxury, while their fellow-men and tools cry for a crust. Moral suasion is the remedy for strikes and in nine out of ten cases win the day. We are pleased to note that the patronage of the sheet in question is very slim, and steadily dropping. Editorially, the proprietor tells this to the people weekly. The publication never was even an approach on the average labor paper, but we had hoped to see it rise. As it is at present, its death will be looked upon as a blessing, and as its vitality is fast ebbing, we hope that ere many moons, we may inscribe, "It Left the City for the City's Good."

PATRIOT.

AFTER J. J. BARRETT.

The Township Trustees Have to Aid His Wife.

The trustees today sent Mrs. J. J. Barrett to Oil City, Pa., because she was in a delicate condition, and her husband will not provide for her. Barrett, not long ago, sold the furniture of their home, and instead of making an honest living by working at his trade began a round of dissipation that soon exhausted his resources. His wife, who was on a visit, heard of his actions and came home, and being in a delicate condition could not stand the trouble. She made application to the trustees, and they at once sent her to her mother. Two children of the couple are in a Catholic institution and the mother took two with her leaving one here to make her own way. Meantime there should be some means of punishing the man Barrett.

THE LISBON RACES.

Liverpool Will Be There In Force Tomorrow.

Jack Harris rode to Lisbon this afternoon, and during the day went over the route mapped out for the road race tomorrow. He has been ill too long to take any part in the race, but he will accumulate pointers for other Liverpool boys who have entered. York will be the scratch man, and in the five-mile handicap he will have the limit. Hale, Trappe and Irons are in the races, and will undoubtedly bring away their share of the trophies. Bott is entered in the road race, having only 30 seconds the advantage of York. A great crowd will attend from this city and the Liverpool boys will have plenty of rooters to cheer them on.

KILNMEN CAN WORK.

There Will Be No Attempt To Stop Necessary Toil.

The Sunday closing movement was generally discussed about the streets last evening, and satisfaction was expressed because there would be no effort to suppress Sunday work, or such of it as be necessary, about the potteries. No move will be made to interfere with kilnmens, watchmen and other workmen that can not be avoided.

WHIPPED THE OFFICER

Two Liverpool Boys in Jail at Elwood.

GAVE HIM A GOOD THRASHING

They Did Not Agree With the Policeman And He Got the Worst Of It—The Burgess Would Accept No Forfeit—Will Be Heard Today.

Two young men of the East End who went to Rock Point yesterday are now wishing they had remained at home for in the afternoon they were locked in a dungeon cell awaiting the pleasure of his royal highness, the mayor of Elwood.

When the train came in last night these young men were missing, and some of their friends related that they had become involved in a row with a policeman at Elwood, and had given him a sound thrashing when he attempted to arrest them for doing next to nothing. They were not drunk, nor had they been drinking, so they gave the officer a thrashing he will not forget for many days. The fight might have resulted seriously, but two other policemen came to his aid and they were taken to jail. Some of their friends questioned the burgess about the price of their liberty offering him \$13 and a gold watch as security, but he would have none of it. He had the prisoners, he said, and he was going to keep them until they were tried. The anxious ones were compelled to return empty handed, and wait patiently until they could hear something today.

A ROUGH RUN.

The Patrol Had a Hard Drive Through the Mud.

An alarm called the patrol last night about 9 o'clock and Patrolman McMillan had the hardest run of his experience. The streets were slippery, and the wagon rocked in a dangerous manner as it went bouncing along the road. When the East End was reached it was found that Tommy Humphries had been annoying the public. He was delighted at an opportunity to ride to town, but objected when he found it would all end in a little informal talk with the mayor.

Thomas was released this morning because there was no charge against him. Mrs. George Bolton appeared and said he had threatened her life, but he denied it so strongly, and the woman would not give security for the costs, that the case was dismissed.

SOON TO WED.

Mr. Frank L. Simmers and Miss Mollie Hall Will be Married.

Cards were sent to a few close friends and relatives this afternoon announcing the marriage of Mr. Frank L. Simmers and Miss Mollie Hall at the residence of the bride's parents, Kossooth street, on Wednesday, Sept. 11 at 8 o'clock in the evening. Mr. Simmers is prominently connected with the Specialty Glass company and Miss Hall is the accomplished daughter of Mr. Robert Hall. The happy pair will leave the city for a bridal journey through Canada on the night of the wedding.

THE Cleveland Leader evidently understands the situation when it refers to Mr. Campbell as "Brice's hired man."

BUSINESS grows better because the public knows there is no danger of Mr. Wilson and his wild ideas having any effect upon the tariff.

SENATOR BRICE of New York, contemplates a month's visit in this state before election day. He wants to gain a residence probably.

MR. BRICE pays the bill, and Mr. Campbell does the running, a nice arrangement on paper, but destined to be costly to both aspiring statesmen.

THE Republican editors of Ohio did well when they called on General Bushnell yesterday. They were received by a gentleman as gentlemen, and will not soon forget the hospitalities of that pleasant home.

CIVIL service is only valuable to Cleveland's administration as an anchor. When clerks and other officials are needed for political work Cleveland is not the man to enforce that famous uske of a few years ago. He forgets all about "pernicious activity," or if he remembers it, only thinks of it in connection with the good it will do him.

CRUSH IT OUT.

It is the duty of every good citizen to obey the law, and equally as much the duty of the authorities to suppress him when he ceases to understand what the letter of the law means. The last week has been filled with incidents where men have died because they broke the statutes, yet their death was a crime as sure as any they ever committed.

Even this state with all its boasted civilization, was the scene of a lynching, and the south witnessed a half a dozen lives nipped out in this way. It is high time the government should interfere if the individual states can not cope with the growing evil, and it is evident they can not. Several hundred people have been lynched in the country these past few years, and few if any have been punished for the crimes.

As a rule the populace were maddened by some unusually heinous offense, and the local authorities could not resist them. Until the great American public learn that it is murder to lynch men and women there is little hope of any improvement being noted, and the best way to teach them law is to punish those who break it. Public sentiment may object, but public sentiment must be crushed down or lynching will become more firmly established year by year until there will be no need for judges and juries.

THREE STRIKERS SHOT

They Beat a Man Who Worked Where They Quit.

FIRE AMONG HIS ASSAILANTS.

The Strike Leader Will Die of His Wounds. Was a Coxeyite and Participated in the Chicago Riots—Lively Time Occurs at Wakoneta, O.

WAKONETA, O., Aug. 28.—The strike here on the waterworks trenches has developed into a tragedy, and three men, Joshua Tiller of Pittsburgh, Albert Seifert and Oscar Voorhees of this place, have been shot. Tiller through the bows, Seifert through the arm and the latter through the hand. Tiller will die. The men went on a strike and declared no one should go to work until their demands were satisfied. Some of them went to work anyway, but were driven out.

The trustees and the contractor ordered Lewis Vansicker and another party to fill some trenches and cover some pipe in the Second ward. They began work and a crowd of strikers congregated and commenced beating Vansicker over the head with clubs and shovel handles, breaking the largest ones by force of the blows. After he had been struck several times he drew a revolver from his pocket and fired into his assailants three times with the above results. Several of the participants have been arrested and the officials are after others.

Vansicker is a resident of this place and is considered a good, straight fellow, and public sentiment is apparently with him. Other men will be brought in and put to work immediately, and every man connected with the assault is being arrested.

Dr. John Nichols has just announced that the ball passed entirely through Tiller's intestines and says he only has a few hours to live. Tiller was apparently the leader of the strike and was with Coxey on his march and in the Chicago riots.

Paris Green in the Mouthpiece.

COLUMBUS, Aug. 28.—Lawrence Baetz, a United States deputy marshal, went to the Springfield state convention as a volunteer member of the St. George band. He borrowed an instrument a l accoutrements for the occasion. While there he had his mouth badly poisoned. He claims that members of the band put paris green into the mouthpiece of his horn, and he refused to give up the band property until his claim for damages and medical attention was settled.

The Missing School Teacher Found.

PLAINFIELD, N. J., Aug. 28.—Miss Lucretia Clark, who so mysteriously disappeared from this city on Aug. 9, of whom no further trace could be found, has at last been discovered at Fitchburg, Mass., where she was employed as a servant in the family of Charles S. Hayden. She seems dazed and suffering from an abberation of mind.

Olive Colored Knights Templar.

CLEVELAND, Aug. 28.—The twenty-fourth annual conclave of the grand commandery of Colored Knights Templar of Ohio is in session here. The delegates, who number about 150, attended divine service at St. John's A. M. E. church, where Rev. R. E. Rankin delivered a sermon.

Date of Meeting Changed.

CINCINNATI, Aug. 28.—The date for the annual meeting of the National Association of Manufacturers at Chicago has been, by order of the executive committee, fixed for Nov. 19, 1895, instead of Oct. 16, as heretofore ordered.

Saw Her Babe Killed.

LIMA, O., Aug. 28.—The 15-month-old child of William McKinney ran under the heels of a horse and was kicked to death. The mother was close to the little one at the time. She fainted and may lose her mind.

Editors Call on Bushnell.

SPRINGFIELD, O., Aug. 28.—Nearly 100 Republican editors of Ohio called on General Bushnell yesterday. General Jones, candidate for lieutenant governor, was here also.

Small Ohio Happenings.

Nathan Overpeck, the marshal of New Paris, was bound over in the sum of \$1,500 for killing Peter Hughes.

Captain Isaac Collins of the Kenton fire department died from injuries received by falling from a tree onto an iron gate picket.

Rev. J. D. McCalif of Beaver, Pa., has been elected pastor of the Bridgeport Presbyterian church. Several candidates were voted for.

The second special election to decide whether or not New Carlisle should issue bonds for a new city building resulted by a large majority in the affirmative.

Lena Mallorres of Columbus has begun suit for divorce from her husband, Charles Mallorres, a railroad man living in Cincinnati. Habitual drunkenness is charged.

Robert Gibbs, a carpenter, was struck on the head by a falling piece of timber at the new Indian Run churches, Ports mouth, receiving injuries that are expected to prove fatal.

James Peasley, a farmer of Holmes town, Crawford county, is missing. He came to Bucyrus and took the excursion train to Toledo and Put-in-Bay, and was on the steamer City of Toledo when she collided with a schooner.

Near Washington C. H., Claude Andrew and Miss Cora Casey were enjoying a buggy ride when their horse bolted. And was badly kicked on the neck, and Miss Casey was kicked on the forehead just above the eye. It is also feared that the young lady was injured internally.

Frank Holycross of Marysville was arrested and brought before Squire Wigget on a paternity charge preferred by Mrs. Picket Lansdown, mother of Little Lansdown, the girl in the case. He was arrested some time ago on the same charge, but was released on the promise of paying a certain amount, which he has failed to do. Hence the arrest.

Under instructions from the county coroner, Dr. O. C. Stutz, assisted by Dr. McConnell and Walton, performed a post mortem examination upon Policeman Simonis, who was found in a dying condition in the rear of the Comins works, at Upper Sandusky. Their official report mentions no marks of violence, and in their opinion he died from congestion of the brain.

RANSOM AGAIN MINISTER.

The President Sends the Mexican Representative a New Commission.

WASHINGTON, Aug. 28.—The president has granted a new commission to Matt W. Ransom, United States minister to Mexico. This ends a legal complication, by which Minister Ransom, after several months' service at his post at the City of Mexico, was declared ineligible to fill the office to which he had been appointed prior to the expiration of his term as United States senator. It was held by the treasury accounting officer that he fell within a constitutional inhibition against the appointment of congressmen to offices created, or whose emoluments had been increased, during their services in congress.

It has been generally understood that Mr. Ransom would be promptly re-appointed, and the slight delay which has occurred presumably has been for the purpose of definitely ascertaining that there was no more legal or other obstacles in the way of re-naming Mr. Ransom to the Mexican mission. The minister was in Washington a few days ago, but is now in North Carolina recuperating from an attack of illness, due in part to the climate of the City of Mexico.

TERROR AMONG ARMENIANS.

They Fear Turks Will Punish Them For Brigandage Crime.

CONSTANTINOPLE, Aug. 23.—Advices received here from Erzurum say that great terror prevails among the Armenians there owing to the attitude of the Turkish authorities. The latter, in consequence of an attack which was recently made by brigands upon a Turkish colonel, during which a member of the escort was killed, are believed to be taking steps which will have most serious consequences.

The Armenians are accused of being the authors of the attack on the colonel, and it is alleged that a large force of Turkish troops has been retaliating by attacking the villages and monasteries of the vicinity and engaging in other acts of violence. The Armenians, fearing a recurrence of the Sasoun outrages, have appealed to the ambassadors of the powers at Constantinople for protection.

Sent the Millionaire Spendthrift Home.

COUNCIL BLUFFS, Ia., Aug. 28.—Leslie D. St. Clair, the millionaire of Vincennes, Ind., who has been literally burning money here for a week, has left for home, being assisted by the police. TWO TICKETS LIKELY.

A Dual Convention Probable at Harrisburg Today.

QUAY APPEARS TO BE WINNER.

Both Sides Hold a Caucus and Quay's Roll of Delegates Shows a Majority—The Gilkeson Crowd Captures Convention Hall—Compromise Talked Of.

HARRISBURG, Aug. 28.—The anxiously anticipated caucuses of the two factions of the state Republican party have been held, and the results thereof make it appear certain that Senator Quay has a majority of the legally elected delegates, and has therefore won his fight. The Quay caucus determined to hold a separate convention, and unless there is a compromise, two conventions will meet here.

The prospect of an exciting battle has attracted to Harrisburg many of the roughest element from the larger cities, and trouble is looked for, although there has been nothing more serious than an occasional fist fight. Aside from the announcement that Quay has a majority of the delegates, and that there will probably be two conventions, the news feature has been the capture of the opera-house, where the convention was to be held by the anti-Quay people.

A dramatic company was holding forth at the opera-house. Chairman Gilkeson is said to have received information that the Quay people had planned to fill the house with "peelers," who would refuse to leave at the end of the performance, and remain all night, thus gaining possession of the house. To circumvent this move, Chairman Gilkeson bought off the theatrical company, and securing the keys from the leasee, placed in the house about 100 policemen, firemen, special officers and other determined men, who arrived from Pittsburgh under charge of Superintendent of Police Roger O'Meara of that city. Their meals were sent in to them, and they remained in the house all night.

Today's convention is to select candidates for state treasurer and superior judges. B. J. Haywood of Mercer county will probably be chosen for state treasurer, but it is possible that the six judges who were appointed by Governor Hastings, and who it was thought would be unopposed for the nomination, will find themselves cast aside by the Quay people and new men named for their places. Among the dark horses named are Judges Wilhelm of Schuykill, Davenport of Erie, Stewart of Franklin, Crumrine of Washington and Schaefer of Delaware.

The state committee when it met received from the Quay caucus the request for a separate convention. The request was referred to a sub-committee, who it is understood, will endeavor to arrive at an amicable agreement with the anti-Quay leaders, whereby only one convention may be held.

It is also understood that the Quay people have engaged the hall over the Chestnut Street marketplace, which seats 500 persons, and will hold their convention there if the effort to arrive at an amicable agreement with the anti-Quay people fails.

The anti-Quay leaders are claiming that there were 153 delegates at their caucus, although there was no rollcall, and that the Quay people worked the old trick of answering to the names of delegates who were not present. The anti-Quayites say their forces remain unshaken, and that they had 152 uncontested delegates at their caucus, a majority of seven.

THE SIOUX CITY TRAGEDY.

Arrests Made as Double Murder and Robbery is Suspected.

SIOUX CITY, Ia., Aug. 28.—Starting developments have come to light in connection with the double tragedy in which Max Noack and Ira Minter, alias Hazel Hammond, lost their lives. The most important find is the discovery of the imprint of a strange man's hand on the dust in the room in which the bodies were found and an exit to the alley below, which had not been noticed before. A hammer with what appears to be human blood on it has also been found. It is now thought that this hammer figured in the killing. The theory of double murder with robbery as the motive is regarded as fully confirmed.

Warrants have been sworn out charging Maud Hoyle, proprietress of the house, where the murder occurred, and Dan Berry, a pugilist who formerly lived in Omaha, with murder in the first degree, and they were both placed under arrest.

A telegram from Shelton, Neb., says Noack was the son of a wealthy farmer living near that city. The dead girl was a prominent member of the Methodist church at Central City, Neb., where her father lives, and moved in the best society there before coming here three months ago.

A Distinguished Gathering at the American Bar Association Convention.

DETROIT, Aug. 28.—An intellectual looking assembly of 300 leading jurists and members of the bar were present in Y. M. C. A. hall when President James C. After thanking the Detroit representatives of the profession for the cordial receptions tendered the visitors the president read a short list of the most noted jurists present, who were invited to seats upon the platform. President Carter then proceeded with the reading of his address.

Following the president's address the executive committee reported the election of 27 new members during the past year. The general council reported its approval of 128 nominations for membership, all of whom were therupon elected unanimously. The secretary reported 1,144 members on the rolls besides those elected today and during the year. A balance of \$3,700.36 was shown by the report of the treasurer.

Cherry Valley Iron Company
Gets an Injunction.

THE WASHINGTONVILLE MATTER

In the Petition the Mine Owners Claim
Their Employees Will Not Allow Others
to Work—Lives Threatened and Declara-
tions to Blow Up the Mine.

Special to NEWS REVIEW.

LISBON, Aug. 28.—The trouble between the Cherry Valley Iron company and the miners who have been in its employ at Washingtonville culminated in a suit in court today, and a temporary injunction to prevent further demonstration on the part of the men.

The petition recites that the men struck on May 1 and have since refused to return except on such conditions as make it impossible for the company to pay the wages they demand. The mine was idle until August 5 when other men were employed, but on account of threats the miners have alarmed and intimidated the new comers so that they have succeeded in forcing them to abandon work, and prevent others from making the attempt. The petition further claims that in several instances men have been assaulted and threatened with death, and the strikers have repeatedly threatened to blow up the mine. The defendants are named to the number of 30, several being women. This is the sequel to the call for aid upon Sheriff Lodge a few weeks ago, and will in all probability end the strike.

Long Must Hurry His Appeal.

WASHINGTON, Aug. 28.—An attempt has been made in some quarters to work up a diplomatic controversy over the Alaska boundary survey between the United States and Great Britain. The status of the case now is that the boundary is to be settled by an agreement between the two countries, after a survey has been made, and no appeal is likely to occur.

BOSTON'S GREAT GALA DAY.

The Knights' Parade Lasted Five Hours.

Thousands Saw It.

BOSTON, Aug. 28.—All Boston is discussing the greatest gala day the city has ever seen. For more than five hours the principal avenues were occupied by plumed Knights Templar, and hundreds of thousands of spectators obligingly crowded onto the sidewalks to give them room. The day was a fine one, and at no time was the heat great enough to cause much discomfort. There were none too many grand stands to accommodate the immense throng that clamored for seats, although almost every foot of available space along the line of march had been covered with platforms and seats.

The Knights presented a splendid appearance on parade, and with very few exceptions, completed the entire line of march. As they passed the reviewing stands before Grand Commander McCurdy and Chief Marshal Greenhalge, and later before Chief Marshal Lawrence and Mayor Curtis, many of them executed intricate military evolutions, which won the admiration of the thousands who witnessed them. These tactics were also introduced by the more proficient commanders at intervals along the line of march.

Last evening was given up by the Knights to general merry-making. There were banquets and receptions galore, and at every headquarters open house was in order. The conclave was officially opened by exercises in Masonic temple immediately after the close of the parade. Today the serious business of the conclave is in order.
